

Candidate Profile

I am excited to be a candidate for Connecticut Association of Assessing Officers President-Elect. If elected, my goal is to carry on the mission of CAAO which is to improve the standards of assessment practice and to provide for the education of its membership.

Having served as the Education Coordinator for the Connecticut Chapter of the International Association of Assessing Officers for the last 11 years I understand the needs of our members and their necessity for relative and ongoing education. The perspective I have as an organizer, a student and a presenter will bring an added benefit in serving as your President Elect. My experience serving on many committees for CAAO over the years and my leadership roles in both IAAO and CTIAAO have prepared me to better serve you. I know the dedication and commitment it takes to have a successful organization.

I am committed to the Assessment profession and my experience working through the ranks of an Assessor's Office and having worked both in small and large jurisdictions gives me a good perspective. I respectfully request your support.
