

Connecticut Chapter of the International Association of Assessing Officers

Homeowner’s Training Program

This four hour program will provide the attendee with the knowledge to verify income and process applications for the homeowners tax relief program. The session will review the various types of income and what is and is not considered when calculating income. The program will review the statutes and the responsibilities of the assessment professional taking the application.

*Instructors Melinda Fonda CCMA II and Sarah Scacco CCMA II,
Approved 4 hours CCMA Recertification Credit*

Quality Data will provide training for the last hour of the session for those assessment professionals currently using Quality Data Software. The session will review processing the application in the administrative software.
